

Emily Deeb

Architect & Urban Designer / Analyst | MSc Urban Spatial Science, CASA UCL

emilymdeeb@gmail.com +44 7301 831116 *London, UK*

PROFILE

Architect and Urban Designer with five years of professional practice, including project design lead on a 100,000-unit city expansion masterplan and team leadership across 15 concurrent projects for Eilat Municipality, the Israeli Authority for Urban Renewal, and private developers. Now advancing into Urban Spatial Science at CASA, UCL, bringing a rare combination of hands-on strategic analysis experience at city scale, GIS and Python-based spatial analysis, and a research grounding in how the built environment shapes community, identity, and wellbeing. Seeking to apply computational methods to questions of urban morphology, housing, accessibility, infrastructure and the social dimensions of space.

PROFESSIONAL EXPERIENCE

Team Leader – Urban Design | 2020 – 2025

Derman Verbakel Architecture, Tel Aviv

- **Overview:** Led a team of 4 architects across 15 concurrent projects spanning block to city scale, covering strategic masterplans, TOD, urban renewal, housing schemes, and public space for municipal and private clients. Authored strategic planning documentation, trained team members in GIS and data tools, and managed client relationships across all project phases from concept to planning authority approval.
- **Key projects:** Transportation Masterplan of Eilat (strategic mobility guide, Eilat Municipality); Regeneration of Historical City Centre of Sakhnin (1,200 units, Israeli Authority for Urban Renewal); New Neighborhood in Rishon LeTsiyon (Gindi-Caspi); TOD Regeneration Plan surrounding Future Metro Station, Rishon LeTsiyon (3,000 units); City expansion masterplan (Confidential) the largest-scale project in the portfolio, overseeing design strategy and spatial planning across the full masterplan area (100,000 units).
- **In-house development:** Developed and led geo-computational workflows in QGIS, ArcGIS, for morphological mapping, market analysis, and profitability modelling, improving office workflow efficiency by 30%.
- **Client Communication:** Produced spatial data reports and visualizations presented to municipal planning committees, the Israeli Authority for Urban Renewal, and private developers; managed statutory planning submissions.

INDUSTRY PROJECTS & COLLABORATIONS

Buro Happold | June 2026

Consultancy Project – Building a Better Future Scheme, UCL Bartlett

- Selected through a competitive application process with UCL to participate in a two-week industry consultancy project, working directly with Buro Happold's team on a smart campus strategy brief.
- Applied urban spatial analysis and digital strategy skills in a live consultancy context, working across a multidisciplinary team to deliver strategic recommendations to the client.

CACI Ltd | May 2026 – August 2026

Dissertation Placement – GeoDS Programme, CASA UCL

- Industry-sponsored dissertation examining whether urban morphological fabric type predicts retail spending patterns across UK cities, independently of demographic composition.
- Working with CACI's proprietary retail and spending datasets alongside HiMoC morphometric data; applying Python-based machine learning (classification, SHAP, spatial autocorrelation) to model spatial economic behaviour at national scale, with findings communicated through data visualisation and written reporting to industry stakeholders.

TEACHING & ACADEMIC

Professor Assistant | 2023-2025

Bezalel Academy of Arts and Design, Jerusalem

- Co-taught a second-year B.Arch design studio, mentoring twenty students through design critique, spatial analysis workshops, and individual guidance.

EDUCATION

MSc Urban Spatial Science (In Progress) | 2025 – Present

The Bartlett Centre for Advanced Spatial Analysis (CASA), University College London

- Specialising in computational urban analysis, spatial data science, geocomputation, and machine learning for cities.
- **Core modules:** Geographic Information Systems & Science | Quantitative Methods | Urban Systems Theory | Urban Spatial Science Dissertation.
- **Optional modules:** Data Science for Spatial Systems | Building Spatial Apps with Big Data | Urban Data Visualization | Designing Spatial Data Stories | Urban Simulation.
- Dissertation to be conducted in collaboration with an industry partner through the GeoDS Masters Dissertation Scheme.

B.Arch Architecture | 2015 – 2020

Bezalel Academy of Arts and Design, Jerusalem

- Graduation Project: “Destination: Jericho” — research-led urban design study of Jericho, Palestine.
- Exchange semester: Infrastructure Studio, Universität der Künste (UDK), Berlin (2018).
- Summer Studio: XL Travelogues, Tokyo, Japan (2017).

TECHNICAL SKILLS

Spatial Analysis	QGIS ArcGIS GeoPandas Spatial Network Analysis Spatial Data Science Google Earth Engine API
Programming	Python (Pandas, GeoPandas, NumPy, Matplotlib) R (RStudio) SQL React
Machine Learning	Scikit-learn Classification Clustering Regression modelling Pre-modelling diagnostics
Design & Vis.	AutoCAD Rhinoceros + V-Ray Adobe Suite (Photoshop, Illustrator, InDesign) Microsoft Presentation and office
Urban Morphology	Morphometric concepts network analysis Block/plot typology
Other	Git Jupyter Notebooks UI/UX (CalArts certified) Quarto

AWARDS & RECOGNITION

David Azrieli Architecture Prize — Nominated | 2020

Bezalel Academy of Arts and Design

Excellence Award — Academic Achievement | 2018

Bezalel Academy of Arts and Design

LANGUAGES

Arabic (native) | English (C1 — fluent) | Hebrew (fluent)

CERTIFICATIONS

Licensed Architect (Professional Certificate) — Israeli Labor Department, 2025.

INTERESTS

Cooking, drawing, exploring cities on foot, collecting fun facts, and always learning something new.
